

## PERSONAL STATEMENT

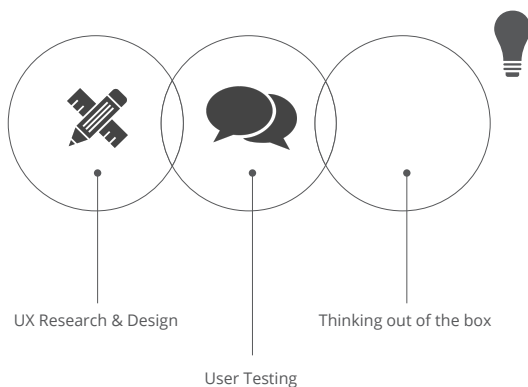

I'm a 26 years old User Experience Professional from Stuttgart, Germany. I love it when users can really connect to their product, and this is what I work for. Nobody wants their consumer to be frustrated and disconnected to their product.

I have over 3 years of experience working as a freelance and working at different companies. I love working with interdisciplinary teams, specially if they have the same passion I have for what they do.

Why don't we work together? Go futher down to see why I am the person you need to hire!
